SU PHYSICS NEWS – JANUARY 2015

Presentations by Faculty:

M. Cristina Marchetti:
• MRSEC colloquium, “Active granular matter: phase separation, sorting and jamming”, Penn State (January 26, 2015).

Scott Watson: invited seminar, “How well can we really know the scale of inflation”, McGill University, Montreal (January 26, 2015).

Presentations by Emeritus Faculty:

Rafael Sorkin: invited lecture, “How Interconnected is the Quantum World?” Quantum Measure Discussion Meeting, Raman Research Institute, Bangalore, India (January 5, 2015).

Participation in Advisory and Review Boards:

Sheldon Stone:
• participated in an NSERC funding review (Canada) for the Belle II project.
• was elected to his 3rd consecutive term to the USLUA executive committee where he serves as the Treasurer. USLUA is the United States LHC user organization.

Other:

Kazage Utuje and David Mayett (graduate students):
• are among this year’s recipients of the Shirley Chan Student Travel Award from the Division of Biological Physics (DBIO) of the American Physical Society (APS). This year, 11 students were awarded the same travel grants of up to $400 per each student as the first author of contributed paper (talk or poster) in sessions sponsored by DBIO at the upcoming March Meeting. The recipients were chosen on the basis of the quality of their work and will be honored at the DBIO Business Meeting in San Antonio, Texas on Tuesday March 3, 2015.
