The theoretical particle physics and cosmology group in the Physics Department at Syracuse University is seeking candidates for a postdoctoral position. The group has interests in lattice gauge theory, phenomenology and model building and theoretical and observational cosmology.

The appointment would be for two years with a possible extension for a third year and is contingent on funding. Candidates should have a PhD in theoretical physics or a related field and demonstrate a strong record of independent, creative research.

Applicants should complete an online application at www.sujobopps.com #072241 and attach a cover letter and curriculum vitae. Additionally a curriculum vitae, a statement of research and three letters of recommendation should be sent to Academic Jobs Online https://academicjobsonline.org/ajo/jobs/6841. Review of applications will begin immediately and will continue until the position is filled. Syracuse University is an equal opportunity employer and encourages applications from women and minority candidates.
